

pieMINI Internet Access Controller

Product Information

*“Quick, easy and hassle-free
Internet Access for your
customers and guests”*

What is the pieMINI?

The pieMINI is a compact, low cost Internet Access Controller designed for hospitality/ tourist park owners to create or extend their network of Internet terminals.

Feature	Benefit
“Hassle-free”	An Internet terminal for your customers that requires no supervision by your staff
“Worry-free”	The secure Linux environment prevents the execution of malicious code and programs
Compact design	Takes up little or no space at all
Low cost	Reduced capital expenditure on your part to start or expand your network of pie Internet terminals
Industry standard PC interfaces	Reduce expense by reusing your existing monitor, keyboard or mouse; or by purchasing off-the-shelf peripherals
Fan-less, disk-less hardware	Silent operation and no moving parts for longer durability
Cashless solution	No coin jams; reduced likelihood of vandalism & theft; no need to provide change
pieLINK standard software	Kiosk software pre-installed and configured to your requirements
Simple installation process	Easy to follow steps to get your pieMINI up & running in minutes
100 prepaid access cards included (retail worth \$1000)	Provides a quick return on your capital investment
24 hour, 7 day telephone support	Help is always available for your customers
