

APPENDIX 4C COMMENTARY
31 July 2009

At the completion of the quarter the Company began the delivery of the first of its Hotspot Webphones to Westfield's New Zealand's shopping centres.

The Company had a net cash outflow from operating activities of \$382,000 (a \$172,000 improvement from the preceding quarter). The improvement was largely driven by the cost reduction program begun in the preceding quarter.

The Company is pursuing a capital raising in accordance within the terms approved by shareholders at the Company's Extraordinary General Meeting held on June 10, 2009.

The Company has received strong interest in its second generation Hotspot Webphone from within Australia and internationally. In this regard, the Company is in discussions with a number of potential customers and partners and remains confident that such activities will generate new sales and service opportunities.
