

**TELECOM NEW ZEALAND TRIAL  
UPDATE - CLARIFICATION**

pieNETWORKS has been advised by Telecom New Zealand that it will be continuing its trial of pieNETWORKS' Hotspot Webphone product as per the Webphone Trial Services Agreement announced on 2 March 2007.

To date Telecom New Zealand has purchased 13 Webphones from pieNETWORKS, 8 of which have been deployed in Telecom payphone locations in Auckland and Wellington. Telecom intends to identify additional sites to deploy the remaining 5 Webphones and continue the trial to obtain further key learnings about the product.

The trial continues to illustrate that the Webphone generates a substantial improvement in revenue compared to the traditional payphone. The Company therefore remains confident that this will eventually result in a large scale roll out of the product.
