

pieNETWORKS sign-up for new Office in Sydney

I'm pleased to announce that pieNETWORKS has signed a 2 year lease on office premises at 32 York Street Sydney, to establish our new office in the Sydney CBD.

We have been looking at a number of options for our new Sydney office over recent weeks, and in the end decided that the location at 32 York Street was exactly what we needed to help us take the next step in establishing our presence in this market.

The easy access to York Street was a key factor in the selection, as were the lease terms which represent very good value in the Sydney commercial office market.

The Sydney office will be the focal point for pieNETWORKS' sales and marketing efforts. Being in easy reach of many of our prospective customers on the Eastern seaboard will help us in the day to day interactions we must have to build our business.

We expect to be up and running in the new Sydney location from 21 November.

Cheers,

Craig Turner
Acting CEO
